Atividade 1 – Reading & Listening - The Winter of our Disconnect

I)

b)

1- Because she felt that her whole family, specially her children, were all living in their own little world because of the excessive use of eletronics.

2- No, Susan Maushart admits that she herself was addicted to her eletronics devices, but she thinks that only her children were totally dependent on the eletronics.

3- “Digital immigrants” are the people who didn't grow up using digital technologies, “digital natives” are the ones who were born after computers and internet were already part of life.

4- Any eletrical gadget with a screen, inside the house.

5- They were allowed to use landline phones, technology only in school, or at friends house, or on internet cafes.

6- She bribed them, she said she was going to write a book about the experiment, and they would share the profit of it.

c) It was positive, because the children started to talk to each other again, they got interested in cooking and reading, they went to the movies together, one of her sons started to play the sax again, they began to sleep better and they all improved in school and college.

d)

1- ...they were bored, but then they started to talk to each other again, to go in each other room and talk, they got interested in cooking and reading.

2- ...they went to the movies together, they played Cds on the CD Player, and they actually seated and listened to the music instead of having music on their headphones all the time as background music.

3- ...to play the sax again, he'd stop playing a few years ago, but then he started taking lessons again and even started giving concerts.

4- ...write her weekly article for the newspaper, because she had to do it by hand and not in her laptop, she says that at the beginning her hand use to really ache, she just was not used to write by hand anymore.

5- ...the bill for the landmine phone was huge.

6- ...no Tvs in bedroom, no TV in the kitchen where they eat and no wasting hours on the Internet.

e)

1- been able to Google information, like the phone number of a restaurant or what time a movie start.

2- he could not live without a computer or a laptop because he work from home, he does not have an office to go to and he absolutely needs the internet.

3- he says he would not have any problems of missing any digital device.

4- she would not even try the experiment, she could not live without her phone, she uses it for everything.

f)

1- I had to live without Internet when my cellphone broke once, I missed very much because nowadays everything mine is connected to internet, my classrooms, my friends are online, my streamings and much more.

2- Yes, because it showed for the children that much valuable thing in our life are outside the internet.

3- I think I could not do the experiment at all, nowadays my work and my studies are made on the computer and depends also on the internet.
